Chakradharpur, Jharkhand

## PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA 8.2) with hands-on Web Development internship experience and a strong eye for UI/UX. Skilled in HTML, CSS, JavaScript, and Tailwind, with growing backend capability in Node.js. Currently building **StayNest**, a full-stack rental platform with authentication, booking, and cloud database integration. Looking to join a fast-paced product team where I can ship clean, responsive, accessible interfaces.

## TECHNICAL SKILLS

|                 |                                                                 |
|-----------------|-----------------------------------------------------------------|
| <b>Frontend</b> | HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, responsive design |
| <b>Backend</b>  | Node.js (learning), REST APIs, basic Express                    |
| <b>Tools</b>    | Git, GitHub, VS Code, Chrome DevTools, npm                      |
| <b>Design</b>   | Figma, Canva, wireframing, design-to-code workflows             |
| <b>Other</b>    | Python (basics), C, problem-solving, agile collaboration        |

## EXPERIENCE

### Web Development Intern

Dec 2024 – Jan 2025

*Cognify Technology · HTML5, CSS3, JavaScript, Responsive Design*

- Built **pixel-perfect responsive web interfaces** from Figma designs using semantic HTML5 and modern CSS3, ensuring full cross-device compatibility.
- Wrote clean, modular JavaScript to add interactivity to landing pages and improve perceived load times.
- Collaborated with the design team to iterate on layouts and accessibility standards, with feedback applied to 100% of assigned components.

### Game Development Intern (Dynamics)

Aug 2025 – Apr 2026

*GauravGo · Unreal Engine 5, Blueprints, Physics Simulations*

- Engineered **physics-based gameplay dynamics** and complex character movement systems using UE5 Blueprints over a 9-month engagement.
- Optimized dynamic actors and constraints for high-performance simulations; sharpened debugging and team-collaboration skills directly transferable to full-stack work.

### Campus Ambassador

Jun 2024 – Sep 2025

*GirlScript Summer of Code (GSSoC) · Outreach & Coordination*

- Drove campus outreach for India's largest open-source program and resolved technical queries from new contributors, streamlining the contribution workflow.

## PROJECTS

### StayNest — Full-Stack Rental Platform (*in progress*) · Node.js · Express · MongoDB · Tailwind

- Architecting a scalable full-stack rental platform with custom UI/UX, user authentication, booking flow, and cloud database integration.
- Implementing dynamic property listing system with high-fidelity frontend-backend synchronization and responsive real-world performance.

### SkyCast — Real-Time Weather Web App · JavaScript · OpenWeatherMap API · CSS3

- Built a live weather tracking web app that fetches and displays real-time conditions based on user location via the OpenWeatherMap API.
- Implemented graceful error states (offline, denied location) and a clean responsive UI.

## EDUCATION

**B.Tech, Computer Science & Engineering · Netaji Subhash University · CGPA 8.2 / 10**

2024 – 2028

**Class XII (CBSE) — 70% · Kendriya Vidyalaya | Class X (CBSE) — 80% · Kendriya Vidyalaya**

2021 – 2024
